

A Maths Question, PSLE 2016

At a store, for every \$30 spent, there is a discount of \$5. Mrs Lim bought a jacket at the store and paid \$81. What is the original price of the jacket?

<< Division >>

<Diagram>

<Writing>

$$\$30 - \$5 = \$25$$

$$\$81 \div \$25 = 3 \text{ R } \$6$$

$$3 \times \$30 + \$6 = \$96$$

Answer \$96
