Can Sakamoto Method be used in school exams and PSLE? *99% of parents asked this question

We ASKED our students: “What would you do if you can’t solve the word problems using Model Method”?

Possible Options:

1. “Anyhow Do” as we used to say this during our school days
2. Leave It Blank
3. Use Alternative/Other Possible Methods to solve them

What did MOE say?

Your child can use any method to solve word problems as long as the method used is clearly presented and mathematically sound.

Join us in this highly interactive session to explore word problems

SAKAMOTO FREE PARENTS' PREVIEW

**2 April 2016 (Saturday)
1.00pm – 2.00pm**
