

Science is a way of life.

Science is life itself.

For example, cooking is a chemical reaction.

Once meat is heated, it will not turn back into fresh meat, but if you bring frozen meat back to room temperature, it will turn into fresh meat.

What is the difference?

On the other hand, rice becomes soft when it is heated and hard again when it is cooled! This is also a mystery.

Sugar can be dissolved in more than four times the volume of water.

But it is not possible to make a salt water solution with a concentration of 30%. This is because salt does not dissolve easily in water.

What is the difference?

If you know the difference, you may be able to improve your cooking skills!

**P4, P5 & P6 Science
Registration OPEN!**

**Class Start
January 2022!**

Registration Fee:	\$30
Supplementary Fee:	\$30 / year
Deposit:	\$100
Assessment Books:	Chargeable
Tuition Fee:	Primary 6 \$115 / month (2 h × 4 lessons)
	Primary 5 \$110 / month (2 h × 4 lessons)
	Primary 4 \$80 / month (1.5 h × 4 lessons)
Class:	Primary 6 Thursday 7.00 pm – 9.00 pm
	Primary 5 Sunday 1.30 pm – 3.30 pm
	Primary 4 Thursday 5.30 pm – 7.00 pm

<< Teacher-in-charge >>

Ms Grace Tang has been teaching for 17 years after graduated from NUS. Many students have improved before and after tuition from fail to B/A.

**Registration Fee Waiver! Plus Goody Bag Set (worth \$30)
Registration by 27 December 2021,
only for the first 3 students in each class!**
